Friday, April 22

Get on the ‘Brand-Wagon’ and participate in Logowear Friday!

THE PRESIDENT’S BRIEF

Congratulations to Leadership Academy Graduates of 2016
Last Friday the 2016 Leadership Academy graduated Steve Rogers, Lisa Stephens, Rebecca Pang, and Paul Kuttig and each saw the value in their experience. Every year the Academy cohort is divided into teams of members throughout the three colleges who then decide on a project that enhances the student experience across the district and directly ties to District Strategic Plan goals. This year, all projects linked back to goal 5, strengthening institutional effectiveness with a focus on facilitating greater trust and establishing collaboration across our colleges, as well as providing current professional development. These projects were as broad as providing a plan for a district-wide convocation, adopting a college and campus-centric “app” for students to download, mobilizing leadership academy alumni to participate on teams that work under the Chancellor to assist with district-wide initiatives, as well as a communication plan for orientation of employees into our “sea of acronyms”. All were well thought-out and once implemented would strengthen us as a district and serve our students.

Now is the time for you to apply to be the next members of this extraordinary experience. Dr. Michelle Bresso has released an email calling for applications. Don’t wait until the last minute as you will need a letter of support from your supervising administrator. This experience builds leadership skills for on campus opportunities as well as a foundation for those who are interested in an administrative career. It can prepare you to better serve on any one of our governance committees as well as your respective Senates. I highly encourage any one of you who meet the longevity requirement to apply. Please reach out to anyone of our alumni above if you have questions.

Congratulations on NIMS/SIMS Training
I congratulate each of you for following up on your NIMS/SIMS training. Cerro Coso is finally 100% in compliance! I am aware that this training may seem out of our educator’s wheel house; however, it lays the foundation if we were to experience an emergency that requires this level of magnitude of response. Thank you very much for being prepared to lead our students in such an event!

Emergency/Incident Response
In case of a life threatening emergency, call 911.
If you need Security Assistance, call Security Guards:
Monday-Thursday: 8:00am-4:00pm / Friday 8:00am-1:00pm
Devin Benham, 760-793-1441
Monday-Friday 4:00pm-11:00pm
Donna Miller, 805-794-3448
M&O Manager: John Daly, 760-382-0571
